

THE CUBOREE

# DAILY HOWL

EDITION 2 SATURDAY 11<sup>TH</sup> APRIL 2026

## HOW WERE WE NAMED?

### CAULDRON

What better way to stir up a potion than a cauldron!

### ULTRA SCIENTISTS

When you shake things up they explode!

### BOUNCE

Cub Scouts are just bouncy and shaking it all over the place!

# BROWNSEA

## OFF SITE ACTIVITY

Brownsea offers so many different activities that leave the Cub Scouts splashing about and laughing with their friends! Getting the chance to build a raft, play golf and so much more!

Shield painting allowed each youth member to use their creativity in small groups to create their shields that they proudly showed off with their great big smiles when finished off. When they painted and were given freedom to paint what they liked, no Shield was the same. Each one was based on by themselves that you could see in their painting even if the shield was bigger than them, but this was where it was when the cubs were focused at the best. Their teamwork was shown a lot as their communication was clear while they still had lots of fun.

The dunk buckets were filled with competition! Cub Scouts were put up in pairs where they then versed each other and they would pump as much of water into each other bucket and the loser would have a bucket of water dunked on their head, drenching them head to toe.

Canoeing was settled as an end activity where Cub Scouts were grouped up with 4 other youth members and one Leader where they all learned how to take care of the canoes and how to be water safe before they used their team work to carry the canoes to the water with their paddles to which they learned how to properly and safely get into the boats and paddle downstream, while they had a few that had a small moment of fear to which they overcame with the help of their friends.

The pirate plank was on the side of a small sailboat with a wooden plank to the side where youth members could jump off. While a lot found it fun there was a few that were scared but with enough encouragement from their friends they jumped in the water and realised they love it! Watching them run back around was something to smile about.

# ON SITE ACTIVITIES

Explore the world of S.T.E.A.M with these Technology and Engineering focused activities this Cuboree!

Find a passion in Technology with the 3D Printing and Racing Blox. Here you'll get to print a Kazoo (use them appropriately) and control robots and race them against your friends. Make them fight and understand how they work. In these Technology focused activities you'll get hands on experience with these new exciting devices! Technology not your thing? Have no fear, our Engineering focused activities let you use a hands-on approach where you'll be challenged to build towers out of LEGO! Enjoy some more challenges at the Pioneering Blox! You can cross a bridge whilst solving puzzles and sit on a handmade swing by our talented leaders!

**HAVE YOU SEEN  
PAW THIS PERSON? PAW**

LAST SEEN BREAKING INTO THE  
HIDDEN CUB SCOUTS' CHOCOLATE STASH

★ **CALLING ALL CUB SCOUTS** ★  
— TO BE ON THE LOOKOUT! —

 ★  ★ 

BE PREPARED      BE ALERT      DO YOUR BEST

**YELL "WHERE'S MY CHOCOLATE RAMA!"  
IF YOU SPOT THIS PERSON!**

Do you know what's worse  
than finding a worm in your apple?

## JOKE OF THE DAY

Remember to pick up after  
yourselves so you aren't the  
one to find a worm in your  
apple!

Finding **HALF.**

# FIRE! FIRE! FIRE!

The moment the Cub Scouts arrived you could hear their excitement. All groups carried in their staffs and poles nicely decorated and were amazed at the fire trucks as their lights illuminated the area.

The Cub Scouts slowly started to settle down as they were all directed to sit.

The importance of the ashes was told to the Cubs, the ashes of the last Cuboree being used in last night's fire to help commemorate the occasion.

The MC got them to sing and dance about a mango, and then they were all instructed in singing the opening song of every campfire, Campfire's Burning.

The Cub Scouts let out some of their energy in a well-known song there ain't no flies on us.

The campfire was a smashing hit with all the kids, and we all look forward to the next Cuboree Campfire.

## IMPORTANT REMINDER

When cleaning your plates, please remember to

Step 1:

Scrap off  
dishes in  
rubbish bin

Step 2:

Rinse off  
plate and  
cutlery

Step 3:

Wash up

Step 4:

Rinse and place  
in Inspection bin
