

THE CUBOREE

DAILY HOWL

EDITION 3 SUNDAY 12TH APRIL 2026

IT'S A BIRD. IT'S A PLANE. IT'S THE ABSEILING TOWER!

Cuboree has been lucky enough to have the help of sky high talent this weekend with the amazing Vertical Team running the Climb it Up base. The team made up of Leaders, Rover Scouts, Venturers Scouts and Scouts have been busy running four different activities.

The youth are able to climb up a cargo net safely to the 6m platform where they are strapped in and taught how to abseil down the wall. The youth are also given a demonstration of how Prussiking works and are able to climb up the side of the tower by themselves. Facing a rope obstacle course between the trees, Cub Scouts are challenged with reaching as far as they can to reach the next hold.

The Vertical team have also kindly opened the tower to Scouts, Venturer Scouts and Leaders last night to allow them to take a turn on the activities so they can fit in with the cool kids. We pay a huge thank you to our Vertical Team Laurie, Lysbeth, Craig, Brent, Jen, Eve, Jean, Zachary, Kaitlyn, Matthew, Gene, Noah, Jared, Hannah and Aiden.

AIR ACTIVITIES

OFF SITE ACTIVITY

Soaring over the Caloundra coastline, Cub Scouts took to the skies watching the waves from on high.

Air Activities was more than getting a plane ride though. There were drones to fly, arts and craft planes to make out of pegs, lots of things to look at and touch in the museum AND you even fly the plane yourself in the flight sim caravan.

Who are we kidding though. Going fast down the runway and then watching the plane go up and up and seeing really tall buildings look like lego below was just amazing!

Isla from Cauldron said "I loved it when we landed and the pilot opened his window and I screamed!" But Amalie who is also from Cauldron was much more relaxed. "My favourite part was going to the side and looking out the window trying to spot all the animals."

Thanks for helping Shake it Up Airside

ON THE UPS

ON SITE ACTIVITY

Adventurous Activities are a key area of focus in Scouts. Cub Scouts got the chance to explore lots of different Adventurous Activities this weekend.

The Climb It Up activity allowed youth to overcome their fear of heights and try something new on the abseiling tower. Youth members were also given the chance to Prussik up the tower and bravely cross the rope obstacle set up in the trees.

The Wheels It Up activity let the Cub Scouts tear it up on bicycles, go carts as they drove around in circles pedaling till they dropped.

The Hit It Up activity gave the Cub Scouts a unique experience of archery, and the axe throwing was where Cub Scouts seemed to have a lot of fun even if it was the hottest place on the campus as they baked in the sun.

Cub Scouts were also Building It Up on the obstacle course where they were climbing, crawling and balancing and had to race onto the next part of the course where they built shelters and learn new skills in campfire and first aid.

JOKE OF THE DAY

What do you call a seagull that flies over the bay?

I dunno, what?

A Bagel

Remember to keep your food packed away or in the bin

MOVIES UNDER THE STARS

The Cub Scouts were lucky to have some screen time last night, with a special movie chosen to follow the subcamp themes

Cauldron – Fantasia

The Cauldron Subcamp watched Fantasia last night. A rollercoaster of magical, music driven mini stories. From dancing mushrooms, dramatic battle scenes and depicting the difference of good vs evil. A key scene that had all Cub Scouts cheering is when Micky used chaotic water magic to defeat evil!

Ultra Scientists – Jimmy Newtron

Last night the Ultra Scientists strapped on their science hats and enjoyed the thrilling adventure of Jimmy Newtron on the big screen. The kids had a blast watching the movie with all their friends, laughing all night long.

Bounce – Back to the Outback

Bounce Subcamp enjoyed the family friendly movie Back to the Outback last night. A movie about animals escaping from the zoo and embarking on an adventure of freedom together, just like our Cub Scouts who challenge expectations and do their own thing.
